Graduate & Professional Student Government

Fighting Food Insecurity at Indiana University Resolution

Whereas, Indiana University Bloomington commits the university to creating a safe, vibrant, and healthy community,

Whereas, the Graduate and Professional Student Government Constitution states that the GPSG will represent the interests, concerns, and unique perspectives of graduate and professional students,

Whereas, the GPSG Health and Wellness Committee is charged with promoting students' well-being,

Whereas, food insecurity amongst IU students as well as members of the Bloomington community is of increasing concern,

Whereas, IU students' health, performance, and success depend on their access to food and the ability to maintain a healthy diet,

Whereas, the Crimson Cupboard was created to fulfill those needs of students here at IU,

Therefore, be it resolved by the Graduate and Professional Student Government Assembly that –

- (1) Academic Departments, the University Graduate School, the GPSG, and other interested parties should continue to raise awareness of food insecurity and the determinant it is to Indiana University students
- (2) The GPSG earnestly supports the efforts of the Crimson Cupboard and should strongly encourage members to volunteer for and donate to the Crimson Cupboard to help solidify it as a permanent resource for reducing food insecurity.

Respectfully submitted to and passed by the Graduate and Professional Student Government Assembly on this 4th day of November, 2016.
