3MT Final

Active Graduate Students Program

February General Assembly Recap

GPSG representatives passed a resolution calling on IU to follow the examples set by other BIG 10 universities in providing graduate students with 1) recources which track changes that may affect funding, 2) clear communication regarding how these changes will directly impact IU, 3) direction on how to obtain emergency funding, 4) a committment to protecting IU researchers against bearing the full weight of these changes, and 5) a reporting system which will enable researchers with the ability to inform the administration concerning the effect of these changes.

Read the resolution on our website (link found at the top of the email).
